Objective

Motivated and detail-oriented QA Engineer seeking a part-time remote role in software testing. Eager to contribute skills in manual testing, test case design, API testing, and team collaboration to ensure product quality and user satisfaction.

Summary

3rd Year Computer Science & Engineering student with hands-on QA experience at Rablo.in. Proficient in manual testing of web/mobile apps, test case documentation, and defect reporting using JIRA. Skilled in tools like Postman, Selenium, Figma, and Git. Leading a QA team, coordinating progress, and ensuring adherence to quality standards. Passionate about learning and applying best practices in QA.

Education

Rajiv Gandhi Institute of Technology, Bangalore
Bachelor of Engineering (BE) in Computer Science · 2022 - PRESENT
